Reputable brands, backed by a reliable dealer, are your surest guaranty of satisfaction in making any purchase.

When a distillery or winery places its label on a product, they are staking their business integrity—years of prestige and every cent they have spent on past promotion—that the beverage is of the exact quality specified.

All that remains for the purchaser to do is buy from a reliable source, such as the

What's In A Name?

By Frances Lee Barton

IT is often unnecessary to give a detailed description of something particularly delicious. Take the case of Brown Velvet Frosting. The title of the recipe is self-explanatory. By merely saying the name aloud you visualize a rich, velvety frosting that will tend to make any cake more appealing and appetizing. However, do not be convinced by your sense of hearing alone. Employ your sense of taste and actually enjoy the frosting.

Brown Velvet Frosting

1 package semi-sweet chocolate chips; ¾ cup evaporated milk.

Combine ingredients in small saucepan and cook slowly until blended. Bring to a boil and boil gently 5 minutes, or until thickened, stirring constantly. Remove from heat. Cool, stirring occasionally. Makes enough frosting to cover tops of two 8-inch layers or top of 8x8x2-inch cake (generously).

Note: 1 package semi-sweet chocolate may be substituted for chocolate chips in above recipe. Decrease cooking time to 3 minutes, or until thickened.

Interest In Ice Skating Booming

With prize competitions and exhibitions featured at the public skating sessions at Winterland, Post and Steiner streets, interest in ice skating is booming. There has been an influx of new enthusiasts from many large business organizations and recreational groups under the special arrangements afforded them by the Winterland management. Ice skating parties have already been held by many of the groups and many others are being planned.

Special events include Ice Polo games, a hilarious and non-hazardous form of ice hockey, which are held every Monday night, and the Fifth Annual Pair Skating contest, Tuesday nights.

Thursday is known as "Speed Skating Night" at the big rink and there are barrel jumping and racing events in which the members of the Silver Blades club take an active part.

Open Courses For Stenographers

Good stenographers are badly needed in almost all government and war production plants, as well in most regular business and professional offices in San Francisco. Jobs paying excellent salaries are now open to married women of mature years who can take dictation at a reasonable speed and can type accurately.

To help women who have been out of practice in shorthand and typing for a number of years, the Polytechnic Evening high school at Arguello and Frederick streets, has opened special classes, from 7 to 9:15 p. m. Mondays, Tuesdays, Wednesdays and Thursdays.

Even though Gregg shorthand is taught now, there is an arrangement to help those who have started other systems. Many other valuable courses are also given including architectural and marine blue print reading, welding, machine and die work.

STOP SPENDING—SAVE DOLLARS

Property tax levies by San Mateo county and the schools and other districts in the county for this year total $3,513,088, down from the $3,997,899 levy for 1941-42, California Taxpayers' association stated today, making public its study of property tax levies in California counties. City tax levies are not included, the association pointed out.

Theatres To Conduct March Of Dimes Drive

Northern California movie houses and theatres will conduct their Infantile Paralysis March of Dimes Fund Campaign starting February 18, George M. Mann, president of Redwood theatres, chairman of the 48 counties announces.

Every amusement house operator in this sector, in line with the other theatres throughout the nation, will make the appeal for funds to swell the total needed this year to support medical science in their expanded program to guard against a threatened polio epidemic, Mann declared.

Last year California's playhouses contributed more than $68,000. This year, Mann said, it would be the industry's ambition to attempt to double this sum.

Playing tribute to the movie and theatrical profession, Governor Warren, honorary state chairman, complimented Joseph M. Schenck, president of Twentieth-Century Fox, who is California chairman, for the unselfish interest that always characterizes any appeal to show people, and their successful contributions to all movements to the sick, the lame, and the blind.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten percent every pay day.

Five Minutes earlier for your health's sake

Did you ever stop to think how much our efficiency depends on breakfast? From a physiological standpoint, our mental and physical efficiency gets under way at the breakfast table. In these speedy days, however, this morning meal seems to be becoming a lost custom. A cup of coffee and a sliver of toast eaten on the run make up the breakfast menu of a majority of people. Such a kind of morning start lops off a good portion of our efficiency and takes its toll in many other ways, too. It is bad enough in normal times, but now that each of us is shouldering more responsibility, slighting this all-important morning meal is personal sabotage.

If cutting down on breakfast is a question of time, and it usually is, then set the alarm for a little earlier than usual and take time for a nourishing meal. Much of the preparation can be done the night before such as having table set, the batter with the exception of melted shortening mixed for hot cakes, waffles, or muffins, or having the biscuits waiting in the refrigerator.

PATTERN FOR BREAKFAST—If your breakfast pattern has been upset by the rationing program, remember that this meal can still be a well-balanced one. Fruit, cereal, bread in some form and that one cup of coffee supply energy, vitamins, minerals, calories, and that grand satisfied feeling.

FRUITS—Whole fruits such as sliced oranges or baked apples are more filling and have more lasting qualities than fruit juices. Unstrained juices have the same advantage over strained juices. Vary the fruit in some way each day, and don't have too many repeaters. For example, serve apples baked, as a sauce, or fried.

CEREALS—There's a kind for every taste. Vary them from time to time for interest, and alternate cooked cereals with ready-to-serve ones. Molasses, honey, corn syrup, maple-flavored syrup and fruits and fruit sauces add a pleasant change to cereals, and help the sugar bowl too.

BREAKFAST BREAD — Toast is the morning standby, but here, variety is welcome also. Serve toast plain, as French toast, cinnamon toast, or toasted jelly sandwiches. Enriched bread gives extra vitamins that we all can use. Hot breads, hot cakes, waffles, and hot rolls are hearty and are a bit more filling than toast.

Why and How to Starch Cottons

Cotton shirts, blouses, children's clothes, tableware and so many other things are usually better off with a bit of starch because it replaces that new, fresh finish, and clothes stay clean much longer. Starched things shed dust and dirt, not only protecting the surface, but protecting the fabric as well.

FOLLOW DIRECTIONS — There are many kinds of starches on the market, each with its own directions. Follow them and measure accurately both the water and starch for best, professional-looking results.

HOW TO STARCH — After the last rinse, wring articles out, shake them to remove folds, turn garments inside out, and immerse them in the starch water, lifting them up and down so that the starch penetrates the fabric evenly. If stiffer collars and cuffs are desired, gather them together and dip in a heavier starch solution. Wring moderately.

Hang to dry thoroughly or roll up while slightly damp to be ironed within a short time.

When ready to iron, have articles slightly and uniformly damp, and the iron hot. This keeps the iron from sticking. And unless there's embroidery or lace patterns to be brought out, iron them on the right side for that professional finish.

WESTLAKE MARKET

301 Miriam St. RAndolph 9667
Closed Sundays from Noon to 4 p. m.
Open Evenings 'Till 8 p. m.

Food prices are pretty well stabilized by now through price ceilings and fair trades laws. The Westlake Market's policy of competitive prices assures the housewife of getting full value for every cent of the dollar she spends here.

But "food values" at this store go far beyond price specials. The term also includes our handy, close-by location in the residential section, our extra-helpful, neighborly service, our schedule of hours to fit your shopping convenience—all "special" values at the WESTLAKE MARKET.

TODAY'S MEAT PROBLEMS

Nutritionists include meat among the "must" foods in the diet to make America strong, and advise that meat should be eaten at least once each day. The value of a well-fed civilian population has been expressed by Dr. Louise Stanley, Chief of the Bureau of Home Economics, U. S. Dept. of Agriculture, who says: "Fighting forces are not supported by a poorly fed population on the home front."

Following are suggestions from a recent release for housewives who wish to get the most from the present available meat supply:

1. *Be sure that it is stored properly to prevent waste.*

2. *Cook meat at a low temperature to avoid loss in shrinkage.*

3. *Make the best possible use of left-overs, and use ingenuity in making meat purchases go farther.*

THE FARMERS MARKET is doing its utmost to insure your purchases of sufficient quantities of this important food.
